

Pension facts for parents

FAIR PENSIONS FOR ALL

FACT ONE

Teachers and other public sector workers are being asked to pay more for their pensions, work longer and get less in retirement.

FACT TWO

Many private sector workers have no proper pension provision. The Government should be acting on this, not attacking public sector pensions.

FACT THREE

Cutting public sector pensions will just make more pensioners poorer and put the cost of supporting them on to the State and taxpayer.

FACT FOUR

Damaging teachers' pensions will lead to more teacher shortages and turnover, which will in turn damage children's education.

FACT FIVE

The teachers' pension scheme is affordable. Reports from the National Audit Office and the House of Commons' Public Accounts Committee show that the cost of teachers' pensions is falling as planned.
